Source of information: Network SIMS Database

Date of Preparation: June 2006

Race: The categories are from the CMS-2728 Form.

Diagnosis: Categories are from the CMS-2728. A diagnosis of 'unknown' is ICD-9 code 7999.

This table cannot be compared to the CMS facility survey because the CMS Facility Survey is limited to dialysis patients receiving outpatient services from Medicare approved dialysis facilities.

The numbers may not reflect the true point prevalence due to different definitions for transient patients.

This table includes 221 patients receiving treatment at VA facilities.
