

Table 5. The percent of patients in either the non-intervention or intervention facilities with a measured URR \geq 65% in the 4th quarter of years 1999, 2000 and 2001.

	intervention			non-intervention		
	Mean	Std Deviation	Count	Mean	Std Deviation	Count
1999.00	66.92	8.97	27	80.40	6.11	84
2000.00	70.87	11.61	27	79.52	7.75	84
2001.00	77.91	10.93	27	83.41	7.65	84

Table 6. The average blood flow rate in either the non-intervention or intervention facilities in the 4th quarter of years 1999, 2000 and 2001.

	intervention			non-intervention		
	Mean	Std Deviation	Count	Mean	Std Deviation	Count
1999.00	380.11	29.67	27	387.83	60.18	84
2000.00	391.91	33.09	27	397.59	36.73	84
2001.00	404.42	31.15	27	401.06	42.69	84

Table 7. The average time on dialysis in either the non-intervention or intervention facilities in the 4th quarter of years 1999, 2000 and 2001.

	intervention			non-intervention		
	Mean	Std Deviation	Count	Mean	Std Deviation	Count
1999.00	214.54	14.20	27	219.66	9.99	84
2000.00	218.01	14.55	27	221.26	10.92	84
2001.00	222.70	13.61	27	221.91	11.85	84

Table 8. The percent of patients in either the non-intervention or intervention facilities with a high flux dialyzer in the 4th quarter of years 1999, 2000 and 2001.

	intervention			non-intervention		
	Mean	Std Deviation	Count	Mean	Std Deviation	Count
1999.00	32.80	32.62	27	42.91	37.76	84
2000.00	43.06	33.57	27	47.56	39.88	84
2001.00	49.83	36.90	27	53.79	41.33	84

Table 9. The percent of patients in either the non-intervention or intervention facilities with a catheter in the 4th quarter of years 1999, 2000 and 2001.

	intervention			non-intervention		
	Mean	Std Deviation	Count	Mean	Std Deviation	Count
1999.00	28.43	9.28	27	23.77	13.15	84
2000.00	27.89	11.04	27	24.82	13.42	84
2001.00	27.89	11.42	27	25.90	12.60	84
