management
programs**

TIPS FOR TOOLS

“The 3Ps of Vascular
Access Success”

Three toolkits were adopted from the 3Ps of
Vascular Access Success Handbook

- [Prevent Catheters](#)
- [Place and Use Fistulae](#)
- [Preserve Fistulae](#)

These toolkits were developed to assist facilities in Vascular Access QAPI efforts. Blank action plans are included in each toolkit for your convenience. The following additional tools may be used with any of the best practices provided for overall project management.

- [Data Collection Tool Narrative](#)
- [Data Collection Tool](#)
- [PDSA Worksheet](#)
- [QAPI VA Barriers Questionnaire](#)

QUALITY ASSESSMENT & PERFORMANCE IMPROVEMENT

QAPI - Infection Control Tools - The Renal Network has developed the following resources to assist your facility in meeting the QAPI requirements for infection control.

- [Infection Control Action Plan](#)
- [Audit Tool: Infection and Exposure Control](#)
- [Barriers Questionnaire](#)
- [Data Collection Tool Master](#)

Developed by Cindy Miller, RN, CPHQ, QI Coordinator [cmiller@nw10.esrd.net]
Raynel Wilson, RN, CNN, CPHQ, QI Director [rkinney@nw10.esrd.net]
Suzanne Kirschbaum, RN, CNN, Director of Quality Improvement
