

Be Safe!

**Always Keep Your
Access Site Uncovered!**

It Could Be A Matter Of Life Or Death.

Staff need to be able to see that:

- Bloodlines are connected
- Needles are secure and in place
- No blood is leaking from site
- Tape is secure
- There is no tugging on lines

If You Are Feeling Cold...

**Cover up - except for your needles
and connections.**

- Wear gloves / mittens
- Wear hats / scarves
- Wear extra sweater / heavy socks
- Dress in layers
- Use blankets
- Ask your staff for other ideas on how to stay warm
